

Global Brokerage Service

“ Local Knowledge, Global Reach, Proven Results”

Here at Global, our mission is to provide the highest quality of real estate services available. We offer a comprehensive brokerage specializing in industrial, retail, office, land, and investment real estate services. As a market leader we are experts in establishing creative options to achieve client objectives in the buying, selling, and leasing of real estate.

Global is recognized in the industry as a leader in being inventive at structuring transactions. We attribute this to our “Team Global” motto, which combines local knowledge and global reach, to accomplish results. We work as a team with our clients, communities, and brokers to utilize all marketing efforts.

Prevailing at Global is a staff composed of team players who utilize each other's diverse skills and experience to structure transactions. As dealmakers, our brokers are a unique combination of “shoe leather” sales people and intellectual business entrepreneurs. This is an exceptional recipe that allows our clients to benefit from the versatile recourses in our firm. We understand that sometimes your property requires a broker that allows the shoe to hit the pavement to find a unique buyer or find a unique property that meets your desired needs. This commitment gives us considerable advantage out in the market as we are consistently putting ourselves in front of companies both locally and nationally. At Global, we work hard to deliver optimum real estate solutions by dedicating ourselves to our clients and strategically marketing and identifying the most effective path to a successful transaction.

We believe that local knowledge is a key factor in staying current with leading market influences, opportunities, and trends. Our brokers are leaders in being active members of Northeast Ohio Communities. We are committed to staying involved, acting as both members and leaders in local chambers, organizations and economic development groups.
